

A UnitedHealthcare Company

2008 ACTUARIAL SUMMER INTERNSHIP PROGRAM

PROGRAM SPECIFICATIONS

- **Duration:** 10 to 12 weeks (flexible start and end dates), 40 hours per week
- **Location:** Orange County, California & Green Bay, Wisconsin
- **Salary:** Competitive

CANDIDATE QUALIFICATIONS

- **Education:** Working towards a bachelor or master degree in **Mathematics, Statistics, Actuarial Science**, or any other major with relevant experience. At least junior standing with minimum 3.2 GPA
- **Skills:** Strong computer, analytical, and communication skills
- **Exam:** Preference will be given to candidates who have passed at least one Society of Actuaries exam. Other candidates with high GPA & strong analytical skill will also be considered.

PROGRAM DESCRIPTION

- Interns will go through a comprehensive computer training program to learn how to use database query language, actuarial software, and Microsoft applications to perform actuarial calculations.
- Interns will work on product pricing, provider contract analysis, financial reporting, and data quality assurance projects.
- Interns will be guided through the examination preparation process in a full-time work setting (study materials will be provided).

APPLICATION PROCESS

- Send or fax cover letter (include explanation on goals in obtaining the internship), resume and unofficial transcript by **November 30, 2007** (for early decision) or **March 31, 2008** (for regular decision) to:
